THE MANAGEMENT DISCUSSION AND ANALYSIS REPORT

GLOBAL ECONOMIC OVERVIEW

The World Bank forecasts global economic growth to edge up to 3.1 per cent in 2018. This comes after a 3 percent growth achieved in 2017. Growth rate is projected to be 3 per cent in 2019. The International Monetary Fund (IMF) presents a more positive outlook. It expects the global economy to grow at 3.9 per cent both in 2018 and 2019 after growing at 3.6 per cent in 2017. The global economy is experiencing a broad-based cyclical upturn, riding on a recovery in investment, manufacturing, trade and firming commodity prices, which is expected to sustain over the next couple of years. However, downside risks persist which can have wider ramifications on other countries:

- US economy is becoming increasingly protectionist. The recent increase in tariffs for select import items and China's retaliation can escalate into a full-fledged trade war;
- Crude prices have started firming up. The future direction of oil prices will depend on how much US-based shale producers can step up production to counter the production cuts carried out by Organization of Petroleum Exporting Countries (OPEC)-plus grouping;
- There is a sense of growing uncertainty in geopolitics in several pockets – be it the civil war at Syria, the conflict in the Middle East between Saudi Arabia and Iran-Qatar, the tension in Korean peninsula, or even China's aggressive expansionism and belligerent posturing in the South China Sea.

Putting an end to its quantitative easing (QE) programme, the US Federal Reserve has increased its key interest rate six times since December 2015. The European Central Bank (ECB) is also contracting its monetary expansion.

It is therefore not a surprise that as per the World Bank forecasts, the Emerging Market and Developing Economies (EMDEs) will be the main drivers of global growth. The EMDEs, after registering a 4.3 per cent growth rate in 2017, is expected to clock a growth rate of 4.5 per cent in 2018 and thereafter growth rate will further strengthen to 4.7 per cent in 2019. The advanced economies (AEs), after growing at 2.3 per cent growth rate in 2017, are expected to clock a growth rate of 2.2 per cent in 2018 and then further slow down to 1.9 per cent in 2019.

INDIAN ECONOMIC OVERVIEW

India's GDP growth stood at 6.6 per cent in 2017-18 as per data from Central Statistics Office (CSO). After conceding its position as the fastest growing major economy to China for a year in 2017, India is poised to regain the position in 2018. The World Bank predicts a GDP growth rate of 7.3 per cent in 2018 whereas the IMF estimates the figure at 7.8 per cent for the same year. The Economic Survey 2017-18 has forecast a GDP growth of 7-7.5 per cent in 2018-19. Clear signs of a pick-up in economic activity were visible during the year under review. Growth momentum in sectors like agriculture, manufacturing and construction has been on the rise.

The Index for Industrial Production (IIP) has grown at more than 7 per cent for four consecutive months from November, 2017 to February, 2018. The manufacturing sector, which constitutes over 77 per cent of the IIP index, grew at 8.7 per cent in February, 2018. Capital goods output rose by a robust 20 per cent in the same month. Consumer demand has remained strong and a sharp pickup in demand for consumer durables is also visible in recent months. All these developments give an impression that the economy may be on a sustained recovery path. Last financial year 2017-18 has witnessed a year of growth for the Indian economy making it once again regain its position as the world's fastest growing major economy. There is renewed excitement about the India Growth Story.

The biggest achievement during the year under review was the roll-out of the Goods and Services Tax (GST). Despite some initial documentation-related problems faced by smaller enterprises, GST is a giant step forward in creating a stable and transparent taxation regime and will reap rich dividends for the economy.

INDUSTRY STRUCTURE AND DEVELOPMENT

NBFCs have always played an important role in promoting financial inclusion in India. They have been complementing and supplementing the banking sector in reaching out credit to the un-banked segments of the society. The biggest contribution of NBFCs is their ability to cater to the needs of the Micro, Small & medium Enterprises (MSMEs) which form the cradle of Entrepreneurship and innovation in India. NBFCs innate ability to understand their customers' needs and accordingly innovate to offer customized products make them the perfect conduit for credit delivery to MSMEs.

During the year under review, RBI made the following amendments to the regulatory framework for NBFCs:

- Information Technology Framework for the NBFC sector was prescribed with focus; on IT Governance, IT Policy, Information & Cyber Security, IT Operations, IS Audit and IT Outsourcing;
- Infomerics Valuation and Rating Private Limited (IVRPL) was accredited for rating of NBFCs;
- All NBFCs notified as Financial Institutions under the SARFAESI Act were asked to appoint nominated counsels in Hon'ble Delhi High Court;
- Regulation of Peer to Peer Lending NBFCs were issued;
- Directions on Managing Risks and Code of Conduct in Outsourcing of Financial Services by NBFCs were issued;
- Mandatory submission of financial information and information relating to assets in which security interest has been created, to the Information Utility in compliance to the Insolvency and Bankruptcy Code, 2016. National E-Governance Services Ltd (NeSL) has been registered as the Information Utility by IBBI;
- Ombudsman Scheme for NBFCs was introduced. It shall be applicable to only Deposit Taking NBFCs in the initial phase and then extended to all NBFCs with asset base of Rs. 100 crores and above;

THE MANAGEMENT DISCUSSION AND ANALYSIS REPORT

- Relief given to MSME borrowers registered under GST by way of extending the asset classification norm to 180 days for amount overdue on September 01, 2017 and amounts due between September 01, 2017 and January 31, 2018.

ANNEXURE "B" TO THE INDEPENDENT AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of INTER GLOBE FINANCE LIMITED ("the Company") as of March 31, 2018 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India".] These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India".]
